QUALITY TEXTILES ACQUIRES B&B FABRICS TO STRENGTHEN MARKET POSITION

Quality Textiles, a leading European wholesaler of fashion and children's fabrics, is pleased to announce the acquisition of B&B Fabrics, a well-established Dutch wholesaler specializing in home deco fabrics.

With nearly a century of heritage, B&B Fabrics has built a strong reputation for its elegant collections and outstanding service to interior professionals and retailers across Europe.

"The integration of B&B Fabrics into Quality Textiles is a significant strategic milestone for our business. With B&B, we are strengthening our market position and expanding our range with valuable new products. We are delighted to continue our successful collaboration with the talented team at B&B Fabrics and to realise new opportunities together." said Ron van Gerwen, founder of Quality Textiles.

Floris Bertrums, CEO of B&B Fabrics, also sees the advantages of this collaboration: *"Our home deco fabrics will gain greater visibility through the network of Quality Textiles. We are proud that our collections are now part of a wider offering, and we look forward to growing together."*

The integration of B&B Fabrics into the Quality Textiles platform is expected to be completed by the end of 2025. B&B Fabrics will continue to operate under its own brand name, while benefiting from Quality Textiles' strong logistics, technology, and international network. This acquisition is expected to unlock synergies in operations, product development, and customer experience, while ensuring a smooth transition for employees, customers, and suppliers of both organizations.

With this acquisition, Quality Textiles reaffirms its ambition to be the creative partner of choice for the entire professional textile industry – ranging from fashion, interiors to innovative crossovers.
